SECRET,	25X1	
a. 9	_	

Heath on the west bank of the Elbe River at the end of September. This conclusion, to some extent, was confirmed that elements of the Third Shock Army and the 6th Arty Div were unloaded in Tahlwinkel on 27 and 29 September. He also reported the construction

25X1 of a bridge south of Bittkau on 28 September 1952.

It is possible that the 1952 fall maneuvers of the Inira brock Army was broken down into several individual field exercises. The present information on Tahlwinkel confirms the statements in the reference report.

Comment. The units loaded in Volmirstedt were presumably elements of the 10th Cds Tank Div. Another source reported the unloading in Doeberitz of a shipment of the division from Wolmirstedt on the same day.
